

# Christian Ad-lib Stories

Example of a page from a Christian Ad-lib story. The reader asks the kids to give him (according to the list on this page) an adjective, another adjective, a type of food, another type of food, something to drink, the name of a boy in the room, an amount of money (etc). The kids have no idea what story will be read. After the reader has filled in all the blanks, he/she then reads the story, which usually turns out to be quite hilarious.
